City of Long Beach - Department of Planning & Building

2002 Design Awards Program

EXCELLENCE IN ARCHITECTURE

OBJECTIVE: The Department of Planning and Building conducts an annual award program to recognize properties that contribute quality of architectural design in the City.

APPLICABILITY: The design award program was created to identify and recognize the most appealing properties in the many varied areas throughout the city. The theme for this year's design award program, EXCELLENCE IN ARCHITECTURE was selected so that individuals in our community can select and recognize what properties stand out as beautiful, have a distinct and recognizable architectural style and to acknowledge how well they are maintained. The criteria for review include, but are not limited to: excellent architecture, neighborhood compatibility, use of color and material texture, whether landscape compliments architecture, and whether the building functions well for its intended use. The award will be given to both the owner and architect/designer.

NOMINATION: The addresses and signatures of three (3) individuals in our community are required in order to nominate a property. Nominations must be received by the Department of Planning and Building no later than **Friday, October 4, 2002**, in order to be considered for this year's program.

SEPARATE FORM AT PERFORATION. PLEASE SUBMIT ONLY THE NOMINATION FORM.
